INFORMATION ON THE COVID-19 SITUATION

Dear customers, suppliers and other partners of TANDLER Zahnrad- und Getriebefabrik,

In view of the COVID-19 pandemic, we are currently experiencing special times. In recent weeks and months, the governments of our countries have ordered drastic but necessary and correct measures that have changed all our lives significantly.

We would like to thank our customers, suppliers and partners for the trust they have placed in us during this time and for the excellent cooperation. In the past weeks, we have successfully implemented all the necessary precautionary measures to avoid health hazards and to maintain operations without restrictions.

Only in this way have we been able to continue to complete all orders on time and, on the basis of this unrestricted efficiency, we do not see any impairment of our performance and delivery capacity in the future either.

Once again, many thanks for the excellent cooperation and your trust in the usual reliable Tandler quality and Tandler service.

We look forward to a further successful future with you. Stay healthy and careful!

TANDLER Zahnrad- und Getriebefabrik Bremen
